

Understanding the prevalence of age-related eye disorders will help policymakers develop better policies and interventions for preventing and treating vision problems. If appropriate preventive steps are not taken, costs will burgeon as the population of New Jersey ages and life expectancy increases. The number of New Jersey residents with impaired vision, including blindness, could more than double over the next three decades.

PREVALENCE OF AGE RELATED EYE DISEASE IN NEW JERSEY

	<i>female</i>	<i>male</i>	<i>white</i>	<i>black</i>	<i>Hispanic</i>	<i>other</i>	<i>total</i>
Hyperopia, age 40 and older	254,252	162,417	334,952	25,255	32,977	23,485	416,670
Myopia, age 40 and older	554,628	455,582	772,828	70,402	94,579	72,400	1,010,209
